CERTIFICATE OF ANALYSIS

Important Note: Centrifuge before opening to ensure complete recovery of vial contents.

Catalog #: R17900 **Lot #:** 4C08310

Description: Coxsackie A9 (P.B. Bozek Strain)
Coxsackie A9 Antigen, Strain P.B. Bozek

Source: LLC-MK2 Cell Culture
Strain: P.B. Bozek

Format: Lysate, Liquid

Purification: Harvested cell culture fluid purified by ultra-centrifugation to remove cellular components with the resulting supernatant supplied as antigen.

Concentration: Not Determined

Buffer: Not Applicable

Preservative: None

Applications: Suitable for use in ELISA and Western Blot. Each laboratory should determine an optimum working titer for use in its particular application. Other applications have not been tested but use in such assays should not necessarily be excluded.

Storage: Store at -20°C to -80°C. Aliquot to avoid multiple freeze/thaw cycles as product degradation may result.

Inactivation: Heat inactivation for 45 minutes at 60°C. Confirmed by re-inoculating LLC-MK2 cells and cytopathic effect observed.

Warnings: No test guarantees a product to be non-infectious. All materials should be handled as if potentially infectious. Generally accepted laboratory practices appropriate for infectious materials should be employed when handling this product.
