|-----------------------------|------------------------------------------------------------------|
| <b>Target:</b>              | Plasmodium falciparum (Malaria) Histidine-Rich Protein-2 (HRP-2) |
| <b>Host:</b>                | E. coli                                                          |
| <b>Clonality:</b>           | Monoclonal                                                       |
| <b>Tested Applications:</b> | ELISA, LF                                                        |
| <b>Purity:</b>              | > 95% (SDS-PAGE)                                                 |
| <b>Purification:</b>        | Affinity purified.                                               |
| <b>Form:</b>                | Liquid                                                           |
| <b>Storage:</b>             | Store at -20°C.                                                  |
| <b>Buffer:</b>              | 50 mM Tris, pH 8.0, 100 mM Sodium Chloride, 0.2 M Sucrose.       |
| <b>Note:</b>                | This product is for research use only.                           |
