ErbB2 Protein

Catalogue No.: abx061452

ErbB2 (Recombinant) Protein is a Protein. It is produced using HEK293 cells.

Target:	ErbB2
Host:	Human
Tested Applications:	ELISA
Purification:	Purified from HEK293 cells
Form:	Lyophilized
Storage:	Aliquot and store at -20 °C. Avoid repeated freeze/thaw cycles.
Expression:	Recombinant
Directions for use:	Centrifuge before opening to ensure complete recovery of vial contents.
Note:	This product is for research use only.
