## **Mammalian Total Protein Extraction Kit**

Catalogue No.: abx098853

Mammalian Total Protein Extraction Kit provides a simple and fast way to extract total protein (including cytoplasmic, membrane and nuclear protein) from mammalian cells and tissues. This kit does not require ultracentrifuge. The extracted protein is suitable for SDS-PAGE, Western Blot and ELISA.

**Target:** Mammalian Total Protein

**Storage:** Store at -20°C. Stable for 12 months from date of receipt.

**Note:** This product is for research use only.
