Stem Cell Kit

Catalogue No.: abx290004

The Reagent contains:

1. 1 vial of Human CD45 Antibody (FITC) and Human CD34 Antibody (PE).
2. 1 vial of Human CD45 Antibody (FITC) and Mouse Isotype Control IgG1 (PE).
3. 50/100 tubes depending on the size.
4. 1 vial of 7-AAD Viability Dye.
5. 1 vial of 10X NH4Cl Lysing Solution.

Target: Stem Cell Kit

Reactivity: Human

Tested Applications: FCM

Buffer: PBS, 0,09% sodium Azide, may contain carrier protein-stabilizer.

Note: This product is for research use only.
