

## VLDL

### Native Human Very Low Density Lipoprotein

|                    |           |                  |         |
|--------------------|-----------|------------------|---------|
| <b>Catalog No.</b> | CSI19698A | <b>Quantity:</b> | 0.25 mg |
|                    | CSI19698B |                  | 1.0 mg  |

**Description:** Human Very Low Density Lipoprotein (VLDL) Inhibits DNA synthesis in lymphocytes activated by the nonspecific mitogen concanavalin A (Con A). Human Very low density lipoprotein(s) VLDL are the next step down from chylomicrons in terms of size and lipid content. Human Very Low Density Lipoprotein (VLDL) transports endogenous triglycerides, phospholipids, cholesterol and cholesteryl esters. Human Very Low Density Lipoprotein(VLDL) functions as the body's internal transport mechanism for lipids.

**Concentration:** Typically 1 mg/ml

**Source:** Human Plasma

**Formulation:** Liquid in 50% Glycerol

**Storage & Stability:** Store at -20°C. 1 year. **Avoid repeated freeze-thaw cycles.**

**NOT FOR HUMAN USE. FOR RESEARCH ONLY. NOT FOR DIAGNOSTIC OR THERAPEUTIC USE.**
