

IgE Dilution Buffer

Catalog # 3009

For Research Use Only - Not Human or Therapeutic Use

DESCRIPTION:	An IgE dilution buffer for concentrating low IgE samples (less than 100 µg/ml) and preventing loss of IgE from non-specific binding in dilution tubes and injection syringes.
APPLICATION:	Use for dilution of IgE antibody for in vivo and in vitro assays.
QUANTITY:	10 ml
FORM:	0.1M PBS, pH 7.4 containing 1 mg/ml of mouse serum albumin
STORAGE TEMPERATURE:	-20°C
STABILITY:	1 year
